functional solutions for their valued clients, developing systems in various industries including but not limited to insurance, healthcare, manufacturing, finance and nonprofit.

RSI heavily focuses on ensuring clients are successful, which is a key to its success. Located on West Street in Southington, RSI works closely with clients, both on-site and remotely, to understand business processes and facilitate solutions, positioning both RSI and its client for continued growth. Company culture embodies the adage “the rising tide lifts all ships.” It is common to observe RSI team members engaging in a lively conversation about how they can help their clients succeed.

As a family-owned business, RSI understands that the people behind the organization are critical to success. The company strives to provide its team members with a fun, challenging and meaningful experience.

You might hear team members talk about company team building, like RSI’s recent visit to cheer on the Hartford Wolfpack hockey team, a book the entire company read and how to apply the lessons learned, or a BBQ lunch at the office. RSI team members take pride in discussing their clients’ successes, whether by developing systems to help shed light on chronic disease or logistics systems to support a manufacturer to become a supplier of the year for Home Depot.

RSI’s continued support and investment in team members and clients has made a difference and earned RSI well-deserved recognition. Hartford Business Journal

named RSI one of the best places to work in 2018; in 2020 Channel Futures listed RSI in its SMB Hot 101 list; and in 2021 RSI earned a spot on the INC 5000 list. Most recently in 2022, the Better Business Bureau (BBB) honored RSI with the Community Care Award for its continued support of Big Brothers Big Sisters of CT (BBBS). As part of RSI’s recognition, BBB gifted \$1,000 to BBBS of CT.

Supporting team members and clients is how RSI has built a business, but the company also is a proud client and supporter of the local community. Realized Solutions continues to support many local organizations, including Big Brothers Big Sisters of CT. Through charitable giving and sponsorship of the BBBS of CT annual gala and golf tournament, RSI believes deeply in helping at-risk youth. Every year team members assemble bikes as a teambuilding exercise and donate them to BBBS of CT.

In Southington, RSI is a past sponsor of the Apple Harvest Festival, the Bread for Life Food Pantry and an annual golf tournament to raise funds for a local Southington resident affected by a spine injury. RSI continues sponsorship through charitable events for Connecticut Children’s Medical Center, The Master’s School and other organizations.

Whether Realized Solutions is busy designing custom software, troubleshooting a network issue, spending time teambuilding at a hockey game or supporting a local organization in need, RSI is a well-rounded business that is passionate about its work and the people surrounding them. Our success is your success!
